

Sharon Snaylam

Artist | Educator

I am a successful and experienced artist and educator having taught Art and Design across the primary, middle, upper, and secondary phases for over 20 years. I am currently Artist in Residence at Saltaire Primary School and Hirst Wood Regeneration Group, both roles which I love. In all of my work I have encountered children and young people from a range of communities representing a broad and varied cultural experience. I have found all of my experiences in delivering art projects extremely rewarding, and am committed to making the art relevant and accessible to children and young people of all abilities and backgrounds.

My own current artistic practice is a visual and written response to landscape. The work is in mixed media using a range of materials and techniques including cardboard, tissue paper, clay, found objects, mono-printing, wax and wash, paint and inks. My most recent work explores the memories of my experiences walking along pathways in the landscape, relating these to personal events in my life. The pathways are symbolic of my life and my personal journey which vary from different perspectives, distances and viewpoints.
